Preface

This special issue of *Acta Physica Polonica A* is dedicated to selected articles of 3rd International Conference on Computational and Experimental Science and Engineering (ICCESEN–2016) held in Kemer–Antalya, Turkey in the period of October 19–24, 2016. ICCESEN founded by Prof. Dr. İskender Akkurt, is a remarkable platform where both computational and experimental works on both science and engineering fields are discussed and shared. There were about 700 presented papers from about 50 different countries in ICCESEN–2016. All manuscripts were subjected to the peer review procedure. We appreciate all the authors and reviewers for their valuable contribution in order to achieve a publication of high scientific quality. We are thankful to all invited speakers, scientific and organizing committee and surely also all participants from all over the world. I am also thankful to Prof. Dr. Witold Dobrowolski (Editor-in-Chief of *Acta Physica Polonica A*) and his team for collaboration with us for publishing over 200 papers in this issue. I am looking forward to meet all again in future ICCESEN conferences (www.iccesen.org).

Prof. Dr. İskender Akkurt
Chair of ICCESEN
Editor for Special Issue

Invited Speakers:

Prof. Oleg Burdakov	Linköping University Department of Mathematics, Linköping Sweden
Prof. Dr. Mitra Djamal	Faculty of Math. and Natural Sciences, Institut Tek. Bandung, Indonesia
Prof. Dr. Madjid Fathi	Dept. of EECS, University of Siegen, Germany
Prof. Dr. Amir Hussain	University of Stirling, School of Natural Science, Scotland (UK)
Dr. Ken Ledingham	Strathclyde University, Glasgow, Scotland (UK)
Dr. Maria-Ana Popovici	Politehnica University, Bucharest, Romania
Prof. Gerhard-Wilhelm Weber	Middle East Technical University, Ankara, Turkey
